Highly motivated and driven computer science student with strong skills in web development and programming. I am proficient in multiple programming languages, including python, Java, JavaScript, with the ability to quickly learn and adapt to new technologies. Demonstrates excellent analytical and critical thinking abilities, consistently approaching challenges with a logical and structured mindset Completed a successful internship where I gained hands-on experience in Node.js development, collaborating in a team environment to deliver efficient and scalable solutions. Eager to apply my technical knowledge, creativity, and dedication to contribute to dynamic software projects and further enhance my skills in the field of software development

B.Tech | Computer Science and Engineering

Parul Institute Of Technology

📅 08/2020 - Present 📍 Vadodara, INDIA

CGPA : 8.62

Science | 12th

Rosary High School

📅 06/2020 - 04/2020 📍 Vadodara, INDIA

Percentage : 70%

Web Developer Intern

PanvaTech

📅 05/2023 - 06/2023 📍 Vadodara, INDIA

- Developed and implemented APIs using Node.js to support various web applications. Worked with MySQL, PostgreSQL and MongoDB databases .

Ecommerce Website

- Developed a Ecommerce website using Django, HTML, CSS and JavaScript Database in SQLite.
- This contains basic functionality like add to cart, checkout and much more functionality.

Weather Application

- Created a weather application with NodeJs, and ExpressJs. MongoDB and Pug.
- By the name of city, it gives current weather and future weather prediction.

Link Scrapper

- Developed a tool which scrap all the link from the website page with the help of Django .

SKILLS

📄 SOFT SKILLS

Team Work

Problem Solving

Communication Skills

📄 PROGRAMMING LANGUAGES

JavaScript

Python
